Safe by Design

Introducing the "Safe Box Opener"

(Patent pending),

SafetyKnife.com's newest addition to their line of industrial grade, safety cutters; cutters designed to

- Get the job done
- Eliminate lacerations
- Eliminate puncture injuries

The Safe Box Opener incorporates

- Recessed, stainless steel, cutting edge
- Integral Safety tip
- Ergonomic composite handle

The Safe Box Opener protects the user while easily cutting

- corrugate
- tape
- string
- strap
- plastic packaging

The ergonomic composite handle gives the user full control and power while the unique design of the integrated steel blade and safety tip makes opening all kinds of boxes and cartons a snap.

Make quick work of opening plastic clam shell packaging

Use the Safe Box Opener to cut cardboard for recycle

Use the Tape Cutter to cut tape without damaging the contents of the box
